

LIBERTY INTERIORS

3D ROOM PACKAGE RENDER DRAWINGS

At Liberty Interiors we pride ourselves on creating aesthetically beautiful spaces - from childrens rooms to whole home renovations and everything else in between!

Liberty Interiors founder Nicole Rosenberg is passionate about creating beautiful spaces that are unique, practical, fun and always reflect each clients individuality.

We know that the process of designing and decorating a room or whole home can be daunting and challenging for clients that live remotely (but also locally!) so here is where our Remote Service can come in handy!

How it works

1. Send photos of your room to bianca@libertyinteriors.com.au
2. We will contact you to get to know your personality and preferences; your likes and dislikes.
3. You will receive a Liberty Interiors 3D Room Render package with 2 - 3 room views giving you a clear vision of the transformation your space will go through. This will also include a full product list for you to order at your leisure
4. \$1750 per room
